

SMART SPACES

Home Automation Installer

Tech Superpowers LLC d/b/a TSP Smart Spaces

Boston, MA

Job Type: Full-Time

About Us:

TSP Smart Spaces is a leading provider of intelligent home and AV solutions in the Boston and New England area. We're revolutionizing how technology integrates with design in both residential and commercial spaces.

Our Mission

Life is elevated through expertly tailored technology.

We aim to be a nationally recognized technology provider, achieving excellence in implementing technology that 'works like magic' in complex business and home environments.

Core Values

Client Focus: Viewing every interaction through the eyes of the client.

Measure Twice, Cut Once: Implementing top-to-bottom quality management.

An Eye on the Horizon: Continuous research and innovation.

Teamwork and Trust: Empowering staff for smart, timely decisions.

The Joy of Technology: Believing in technology's power to enrich life.

Integrity and Hard Work: Upholding strong work ethic and integrity.

Social and Environmental Responsibility: Commitment to community and sustainability.

Compensation

\$60,000 or more annually, with a discretionary bonus of up to 15% of the base salary based on the company achieving specific performance metrics.

Job Description

We're seeking a skilled Home Automation Installer to join our dynamic team. You'll work alongside Lead Technicians and Project Managers, or independently, to implement cutting-edge smart home and AV systems for our diverse clientele.

Key Responsibilities:

- Install distributed audio systems, AV equipment, and smart home control solutions
- Set up shading and lighting systems in various environments
- Assist in project execution from pre-wiring to final configuration
- Troubleshoot and resolve technical issues

Ideal Candidate:

- Passionate about the intersection of technology and design
- Enthusiastic problem-solver with a positive attitude
- Thrives in a collaborative, fast-paced environment
- Adaptable and eager to learn new technologies

Required Skills and Experience:

- Experience with smart home control systems and AV equipment
- Familiarity with software configuration and cloud-based services
- Experience with control systems like Savant or Control4
- Experience with Lutron lighting and shading systems
- Experience in pre-wiring, cable termination, and management
- Proficiency with both Mac and PC operating systems
- Basic networking and computer troubleshooting skills
- Willingness to travel occasionally within the Greater Boston area

TSP Smart Spaces is committed to equal employment opportunity and non-discrimination for all employees and qualified applicants without regard to a person's race, color, sex, gender identity or expression, age, religion, national origin, ancestry, ethnicity, disability, veteran status, genetic information, sexual orientation, marital status, or any characteristic protected under applicable law. TSP Smart Spaces will make reasonable accommodations for qualified individuals with known disabilities under applicable law.
